IN THE MATTER of the Application)	UTILITY DIVISION
of US West Communications for)	
Forbearance of Rate Regulation Re:)	DOCKET NO. 91.2.1
Montana Deaconess Medical Center)	
Great Falls, Montana.)	ORDER NO. 5540a

FINAL ORDER

FINDINGS OF FACT

On February 14, 1991, US West Communications (USWC) filed an application with the Montana Public Service Commission (Commission or PSC) requesting forbearance of rate regulation for intraLATA Message Telecommunications Service (including four call types and collect billing), Outward Wide Area Telecommunications Service (WATS) and WATS 800 Service for Montana Deaconess Medical Center (MDMC), 1101 26th Street South, Great Falls, Montana. USWC makes its application pursuant to Section 69-3-808, MCA.

On February 25, 1991, at the regularly scheduled Agenda meeting, the Commission granted an order extending the deadline for action on this filing five days (Order No. 5540).

On February 27, 1991, at a duly noticed work session, the Commission GRANTED USWC's forbearance application for MTS, Outward WATS and WATS 800 service. The Commission bases its decision solely upon the contents of USWC's application.

Attached to and referenced in USWC's application was a notarized letter from MDMC addressed to USWC, dated January 30, 1991, requesting a proposal for a competitive bid on intraLATA and 800 intraLATA long distance services proposed to MDMC by AT&T.

Although the forbearance statute (Section 69-3-808, MCA) may not permit analysis of the economic merits of USWC's discounted sales prices in considering the forbearance application itself, the Commission intends to analyze the merits of such discount prices in later dockets. There is absolutely no evidence in the

instant or past forbearance applications that prices resulting from a negotiated contract or contracts for the services listed herein or in past applications will cover relevant economic costs. Further, no economic cost studies have been accepted by this Commission for USWC's toll services (see Order Nos. 5354d and 5354e, Docket No. 88.1.2). Therefore, USWC is hereby put on notice that to the extent any such sales prices resulting from a negotiated contract for the services listed herein fall below the Commission's estimate of relevant marginal costs, the resulting shortfall shall be borne by USWC shareholders.

CONCLUSIONS OF LAW

USWC provides regulated telecommunications services within the state of Montana and is a public utility under the regulatory jurisdiction of the Montana Public Service Commission, Sections 69-3-101 and 69-3-803(3), MCA.

The Commission has authority to supervise, regulate and control public utilities. Section 69-3-102, MCA.

USWC's application contained the information required by Section 69-3-808, MCA and ARM 38.5.2715.

ORDER
